Mayors Message – Residents will no longer be receiving recorded messages from Hyrum City unless it involves a utility problem, road closure, or an emergency in your neighborhood. We encourage those who have blocked the city's number to unblock it to receive calls in case of an emergency.

Those who like to be reminded of upcoming events can sign up for those reminders by returning a signed form, which will be included in a future utility bill or by stopping at the City Office, Library, Museum or Senior Center.

Notifications for events will be sent out **only to those who sign up to receive them**, which will be

through a different system than the emergency call out.

A reminder to be a good neighbor. Leash & clean up after your pets. Inexpensive pet waste disposal bags can be purchased that can be clipped to your pet's leash or collar – insuring you are prepared “just in case.”

Sincerely – Mayor Stephanie Miller

Indoor Walking - Beat the winter blues by visiting the Elite Hall during free public walking hours every Monday - Friday from 7:00-10:00 a.m. All are welcome, but please supervise children and don't bring any food or drinks other than water.

Winter Parking Restrictions - Parking is not allowed on city streets or within ten feet of roadway pavement in any municipal right-of-way, unless such vehicle is in a driveway approach or otherwise parked behind the curb where curb exists for a period longer than fifteen minutes when loading or unloading or delivering property between the hours of **11:00 p.m. to 8:00 a.m.** This law allows for snow removal and is in effect until April 1st, even when there is no snow.

Is Your Sump Pump Connected To The City's Sewer System?? - Hyrum City prohibits sumps pumps from being connected to the City's Sewer System. Hyrum City's sewer system is experiencing high flows. With high snow totals and the ground already saturated with water the City wants to be prepared for the spring run-off. We need your help to eliminate sump pump water from being discharged into the City's sewer system to prevent sewage back-up into your home and others around you. Many homes rely on a sump pump to convey groundwater away from the building's foundation. The improper placement of the sump pump discharge could create a problem for your neighbor, a public sidewalk, or the street. Please check to see that the discharge for your sump pump follows these general guidelines and regulations. Ensure that sump pumps are not connected to sanitary sewage piping (not allowed). Even if the sump pump discharge is creating a water problem on your property it can never be connected to the sanitary sewer service. The hose or pipe from the sump pump should discharge the flow onto your own lawn. Do not discharge to a property line or to your neighbor's property. A good rule of thumb is to keep the end of the discharge pipe at least 5 feet away from the lot line, or more where possible. Avoid discharging the sump pump to the street. If you have questions or concerns about your sump pump or a neighbor draining into the City's sewer system, please contact the City Offices at 435-245-6033.
