11. Paradise Cubs	801-472-3058	12. Paradise Phillies	435-890-9257

Each team bats their entire lineup. Don't worry about safe or out calls until the last week of the season. Batters get on base when they hit the ball. They get one base if the ball is hit in the infield or two bases if they hit it into the outfield. Once a team as all hit, have the entire team run all the way around the bases in order from 1st to home. Then have that team go out to play defense and have the other team get to bat. Let every player have the opportunity to play each of the positions by the time the season is over. Please stress the parents to play catch and throw with their player at home so they can learn how to catch, throw and field a ball. The games are 50 minutes long. You should get two or three chances to bat each game. Please remember that this is a learning experience and our job is to make it so much fun that they will want to do it again. Have a parent bring a treat for each game.
